PROFILE

I am a consultant currently working with Excelerate, focused on building impactful solutions through data, partnerships and innovation. I am preparing for UGC NET to clear JRF and pursue my PhD with a job. My research interests lie at the intersection of Hindu religion, microeconomics and mythology.

EXPERIENCE

Associate Consultant — Excelerate Aug 2024 – Present

- Build end-to-end program infrastructure for structured internship cohorts: scoring models, automation and dashboards.
- Designed the Merit Model, an intern scoring and visibility system used across cohort tracks.
- Write cohort briefs and program structure documents for new internship tracks.

EDUCATION

M.A. in Economics 2022

PROJECTS

Merit Model Portal

Intern scoring, automation and visibility system for Excelerate cohorts.

Google Sheets, Apps Script, Looker Studio

Internship Cohort Briefs

Structured brief and program documents for INV and BCA internship tracks.

Content Design, Program Design

Deliverable Evaluation Framework

Rubric-based evaluation of intern team deliverables across cohort tracks.

Rubrics, Data Analysis

SKILLS

Data Analysis · Research Design · Program Operations · Content Design · Automation · Dashboarding · Google Sheets · Stakeholder Management · Microeconomics

ACHIEVEMENTS

- Built the Merit Model scoring system from scratch, adopted across cohorts
- Designed briefs for multiple internship cohort tracks

GOALS

- Goal: Clear UGC NET JRF (at least 200 marks)
- Next step: PhD enrollment (with a job)
- Timeline: Target June 2026
